CASE IH REMAN VALUE STORY

Today, there are more reasons than ever to choose remanufactured parts from Case IH for your equipment. From more product offerings to less downtime during installation, you're sure to appreciate the unique benefits of choosing reman. If you're new to remanufactured parts from Case IH, here are some great reasons to make our parts a key element in your ongoing equipment maintenance program.

SIGNIFICANT SAVINGS

Remanufactured parts from Case IH cost less than new parts – offering a great value while ensuring peak performance.

MORE CHOICES

Every day, we look to add even more parts to our already extensive reman roster. This expanded offering provides more options for your equipment needs.

HIGHER VALUE

It's a fact. When you install our parts in your equipment, you can expect increased resale value.

OEM PERFORMANCE

Unlike "will-fit" parts, each remanufactured part from Case IH is engineered to deliver like-new performance that meets stringent Case IH performance specs.

PROMPT CREDIT FOR YOUR CORE

Your existing core has value. A deduction is not applied to a damaged core (as long as the core is like-for-like and not disassembled) so it's easier than ever to get credit for your core.

QUALITY

Remanufactured parts from Case IH are completely disassembled. All parts are thoroughly inspected and reassembled to the latest OEM specifications.

LESS DOWNTIME WITH INSTALLATION OPTIONS

Because many remanufactured parts from Case IH are ready to install, our service technicians can spend less time completing repairs or shop installs. The result? Quicker turnaround and a whole new level of equipment uptime for you.

SUPERIOR WARRANTY PROTECTION

Unlike no-name competitors or rebuilds, our parts are fully warranted – just like those bought new. Remanufactured parts from Case IH provide same as new, and most times better than new, warranty coverage.
